+ Please Keep Library Books Dry

In Japan, the rainy season lasts from the beginning of June to mid-July. On rainy days, we provide free plastic bags at Main Counter on the 1st floor of Mandai Memorial Library. You can put your borrowed library books into the plastic bag to keep them out of the rain.

Water wrecks books are fragile, and will never be like new even after drying.

So, please be careful not to get the books wet on a rainy day.

★Bibliobattle – A Style of Social Book Reviewing

Mandai Memorial Library will hold the Bibliobattle at Sagamihara Campus Festival on Saturday, October 6th. If you can speak Japanese well, you can participate in the battle. If you understand Japanese, you can enjoy the battle as an audience. The details will be available later.

★How to find books written in English

Both Japanese and foreign books are arranged on the same shelf. So you can find foreign books in the shelves. In addition, we have all foreign books bought before 2002 (almost 120,000 books!) in the automated book stack room in the basement.

You cannot go to the basement floor in the Library. Instead, you can order to take out books from the book stack room via OPAC. The library staff will help you.

~From the editor~

The rainy season in Japan is called *tsuyu* (plum rain). The Japanese tend to dislike this humid season, while loving its cultural traditions and the beautiful view in the rain like hydrangeas with raindrops. We hope you enjoy *tsuyu* season, too!
